

Pennsylvania FBLA
REGION EDUCATIONAL SERIES
What are the “individual” competitive events (objective tests)?

The goal of this document is to:

1. What are the competitive events that will be offered at the RLC?
2. What events are individual events?
3. How many students may I enter in an event at my RLC?
4. What events have grade-level specific restrictions?

The following information will answer multiple questions at a time. Yes, this may be a little lengthy, but it is hoped that it will help guide you as you prepare to register your students for the conference. Remember, there will be a series of e-documents that will answer these questions. This document will focus on pure “individual” objective test competitive events. The following events are open to students in grades 9-12. There may be some specific restrictions attached to these events.

Remember, not all competitive events are listed in this document. In future documents, the following will be addressed: team events, school-site events, performance events.

If you want to read the event guidelines for these events, go to www.pafblla.org – choose “competitive events” in the blue menus at the left – click on the title of the event you wish to review. Pay close attention to the competencies in each event.

Accounting I

You may register the following number of students to compete in this event: three (3)

Test type: objective

of students advanced from your RLC to the state conference: 1st, 2nd, and 3rd place winners advance
