

TIEBREAKERS

Tiebreakers will be determined as follows:

Written Objective Tests

First tiebreaker Participant or team who progressed furthest through the entire test without making an error will be rated higher. Proceed to the second tiebreaker only if both tests are identical. (Identical tests mean that the tied tests each have 100% correct answers or they each have the EXACT same questions right and wrong.)

Here is a tiebreaker example:

Two students have scored a 90 on their SLC test.

Student A has incorrect answers for 1, 2, 3, 4, 9, 10, 55, 74, 82, 98

Student B has incorrect answers for 1, 2, 3, 4, 9, 10, 56, 78, 79, 82

Student B is ranked higher because this student progressed furthest through the test.

Both students have 1, 2, 3, 4, 9, and 10 incorrect. Student A has #55 incorrect, and Student B has # 56 correct. #56 progressed furthest, and therefore is ranked higher.

Second tiebreaker Participant or team who submitted his/her completed test first will be rated higher.

******(Note: In the event of a tie in the team score of the Parliamentary Procedure written test, the first tiebreaker is the team that has the highest individual test score. Proceed to the second tiebreaker (first tiebreaker for all other written objective tests) only if individual test scores are identical.)******

Accounting II, Banking and Financial Systems, Business Ethics, Computer Applications, Database Design and Applications, Desktop Publishing, Entrepreneurship, Global Business, Help Desk, Mr. Future Business Leader, Ms. Future Business Leader, Management Decision Making, Management Information Systems, Network Design, Spreadsheet Applications, Word Processing I, and Word Processing II

Ties will be broken based on scores of the objective test. Follow the procedures for Written Objective Tests at the top of this page.
