

2026-2027 Competitive Events Guidelines

Computer Problem Solving

Computer Problem Solving challenges members to demonstrate their understanding of computer systems, including operating systems, networking, and hardware, through an objective test. This event encourages members to apply troubleshooting and analytical skills to solve technical problems commonly encountered in the IT field.

Educational
Alignments

Event Overview

Division	High School
Event Type	Individual
Event Category	Objective Test
Event Elements	50-minute test, 100-multiple choice questions

Event Information:

National Leadership Conference:

Timing Structure:

Test Duration: 50 minutes

Important Notes:

- **Internet Access:** Provided for testing time only.
- **Event Schedule Notes:**
 - Some events may begin before the Opening Session.
 - All schedules are posted in local time for the NLC host city.
 - Schedule changes are not permitted.

State/Region:

Review Region and State Sections further on in this document.

*** Event specifics are continued below. Review the document in its entirety.

Knowledge Areas

- Operating Systems
- Networks
- Computer Hardware and Connectivity
- Security
- Laptops, Tablets, and Mobile Devices
- Printers and Peripherals

Test questions are based on the knowledge areas and objectives outlined for this event. Detailed objectives can be found in the study guide included in these guidelines.

Test Composition

2026-2027 Competitive Events Guidelines

Computer Problem Solving

Region

Region Eligibility

Each chapter may enter three (3) participants who are members of active local chapters in FBLA Connect, the FBLA membership system. An active chapter is defined as having members “pending or paid” at the time of the RLC registration deadline submitted by the region adviser to the Executive Director and published on the PA FBLA website.

In order to be registered for this event, student data is imported into Blue Panda, the event registration and competitive events management system, from FBLA Connect. Students are imported and able to be registered only if identified as having “pending or paid” membership. “Paid” membership is defined as a dues payment for the student received by National FBLA; “pending” membership is defined as membership for which payment is due to National FBLA 60 days from the date the student appears on the membership invoice.

Members may compete in an event more than once if they have not previously placed in the top ten of that event at NLC. If a member places in the top ten of an event at NLC, they are no longer eligible to compete in that event at RLC, SLC, or NLC.

It is the responsibility of the local chapter adviser

- to pay membership dues for all competitors by the published region deadline and to register students through Blue Panda by the published deadline.

Region Procedure

1. A 50-minute objective test will be administered based on the previously listed competencies. All participants in this event must complete the test in the assigned timeframe.
2. **The participant must comply with the PA FBLA Dress Code which can be found at <https://www.pafbla.org/about-pafbla/dress-code/>. Points will be deducted for not complying with the dress code UNLESS it is an egregious violation.**
3. Participants must furnish their own writing utensil if desired.
4. At the Region Leadership Conference, the participant will be provided with a non-graphing calculator in the online testing program. Participants may not use their own calculators. No scientific calculators, graphing calculators, PDAs (Palm Pilots, etc.), phones, or other memory storage devices are allowed to be used in this event.

Region Judging

All objective tests will be graded through the online test service. If there is a tie between competitors, the last ten (10) test questions will be compared and the individual/team with the highest number of correct answers will be ranked higher. The process will continue in groups of ten (10) questions until the tie is broken. If, after reviewing the entire test, the tie cannot be broken, the individual/team submitting the test in the least amount of time will be ranked higher.

Region Awards

Each region at a **minimum** must distribute a certificate to the top five place finishers in each event.

2026-2027 Competitive Events Guidelines

Computer Problem Solving

State

State Eligibility

The minimum number of competitors each region may enter is the first-, second-, and third-place winners who are members of active local chapters on record in FBLA Connect as having dues listed as “pending or paid.” Since a participant’s “pending or paid” membership was required at the time of region conference registration, only students who are “pending or paid” appear in Blue Panda to be registered for and assigned competitive events at the State Leadership Conference.

If any of the eligible winners cannot attend the SLC, it is the responsibility of the:

local chapter adviser

- to contact the region adviser about the student who will not be attending.

region adviser

- to contact the adviser of the next eligible competitor about participating at the State Leadership Conference.
 - to notify the PA FBLA Executive Director/State Chairman of the change before the deadline date published at <https://www.pafbld.org/about-pafbld/important-dates/>, which is posted on the PA FBLA web site.

State Procedure

1. A 50-minute objective test will be administered based on the previously listed competencies. All participants in this event must report at the event time listed on the SLC schedule.
2. Competitors must bring a fully charged laptop or tablet for online testing.
3. **The participant must comply with the PA FBLA Dress Code which can be found at <https://www.pafbld.org/about-pafbld/dress-code/> Points will be deducted for not complying with the dress code UNLESS it is an egregious violation.**
4. Participants must furnish their own writing utensils if desired.
5. At the State Leadership Conference, the participant will be provided with a non-graphing calculator in the online testing program. Participants may not use their own calculators. No scientific calculators, graphing calculators, PDAs (Palm Pilots, etc.), phones, or other memory storage devices are allowed to be used in this event.

State Judging

All objective tests will be graded through the online test service. If there is a tie between competitors, the last ten (10) test questions will be compared and the individual/team with the highest number of correct answers will be ranked higher. The process will continue in groups of ten (10) questions until the tie is broken. If, after reviewing the entire test, the tie cannot be broken, the individual/team submitting the test in the least amount of time will be ranked higher.

State Awards

The state chapter will present a maximum of ten (10) awards at the State Leadership Conference.

National Conference Eligibility

The first-, second-, third-, and fourth-place award winners at the State Leadership Conference are eligible to attend the National Leadership Conference.

2026-2027 Competitive Events Guidelines

Computer Problem Solving

If the first-, second-, third-, or fourth-place winner cannot attend, it is the responsibility of the:

local chapter adviser

- to contact the PA FBLA Executive Director/State Chairman about the student who will not be attending.

PA FBLA Executive Director/State Chairman

- to contact the next eligible award winner about participating at the National Leadership Conference.

National

Required Competition Items

<u>Items Competitor Must Provide</u>	<u>Items FBLA Provides On-site</u>
• Sharpened pencil • Fully powered device for online testing • Conference-provided nametag • Photo identification • Attire that meets the FBLA Dress Code	• One piece of scratch paper per competitor • Internet access • Test login information (link & password provided at test check-in)

Eligibility Requirements

To participate in FBLA competitive events at the National Leadership Conference (NLC), the following criteria must be met:

- **Membership Deadline:** FBLA national membership dues must be paid to the specific division by 11:59 p.m. Eastern Time on March 1 of the current school year.
- **Repeat Competitors:** Members may only compete in an event at the NLC more than once if they have not previously placed in the top 10 of that event at the NLC. If a member places in the top 10 of an event at the NLC, they are no longer eligible to compete in that event at future NLCs, unless the event has been modified beyond a name change. Chapter events are exempt from this procedure.
- **Conference Registration:** Members must be officially registered for the NLC and must pay the national conference registration fee to participate.
- **Official Hotel Requirement:** To be eligible to compete, competitors must stay within the official FBLA housing block.
- **State Entry Limits:** Each state may submit up to four entries per event.
- **Event Participation Limits:** Each member may participate in:
 - o One individual or team event, and
 - o One chapter event (e.g., *Community Service Project* or *Local Chapter Annual Business Report*).
- **Participation Requirement:** To be eligible for an award, each competitor must complete all components of the event at the National Leadership Conference.
- **Identification at Check-in:** Competitors must present valid photo identification (physical or digital) that matches the name on their conference name badge. Acceptable forms include a driver's license, passport, state-issued ID, or school ID.

2026-2027 Competitive Events Guidelines

Computer Problem Solving

- **Late Arrivals:** Competitors will be allowed to compete until such time that the results are finalized, or participation would impact the fairness and integrity of the event, as determined by Competitive Events staff. Five penalty points will be assessed for late arrivals in any competitive event.

Event Administration

- **Test Duration:** 50 minutes
- **Format:** This event consists of an online objective test that is proctored and completed on-site at the National Leadership Conference (NLC).
- **Materials:** Reference or study materials are not permitted at the testing site.
- **Calculators:** Personal calculators are not allowed; an online calculator will be available within the testing platform.
- **Question Review:** Competitors may flag questions within the testing platform for review prior to the finalization of results at the NLC.

Scoring

- Each correct answer is worth one point.
- No points are deducted for incorrect answers.
- Tiebreakers are determined as follows: (1) The number of correct responses to 10 pre-selected tiebreaker questions will be compared. (2) If a tie remains, the number of correct responses to 20 pre-selected questions will be reviewed. (3) If a tie still remains, the competitor who completed the test in the shortest amount of time will be ranked higher.
- Results announced at the National Leadership Conference are considered official and will not be changed after the conclusion of the National Leadership Conference.

Penalty Points

- Competitors may be disqualified if they violate the Code of Conduct or the Honor Code.
- Five points are deducted if competitors do not follow the Dress Code or are late to the testing site.

Recognition

- The number of competitors will determine the number of winners. The maximum number of winners for each competitive event is 10.

Americans with Disabilities Act (ADA)

- FBLA complies with the Americans with Disabilities Act (ADA) by providing reasonable accommodations for competitors. Accommodation requests must be submitted through the conference registration system by the official registration deadline. All requests will be reviewed, and additional documentation may be required to determine eligibility and appropriate support.

Electronic Devices

- Unless approved as part of a documented accommodation, all cell phones, smartwatches, electronic devices, and headphones must be turned off and stored away before the competition begins. Visible devices during the event will be considered a violation of the FBLA Honor Code.

2026-2027 Competitive Events Guidelines

Computer Problem Solving

Sample Preparation Resources

- Official sample test items can be found in [CONNECT](#). These sample items showcase the types of questions that may be asked on the test and familiarize competitors with the multiple-choice item options.

Important FBLA Documents

- Competitors should be familiar with the [Competitive Events Operations Manual](#), [Honor Code](#), [Code of Conduct](#), and [Dress Code](#).

Study Guide: Knowledge Areas and Objectives

Operating Systems (20 test items)

1. Explain the purpose and functions of operating systems
2. Describe primary operating system components (e.g., registry, virtual memory, file system)
3. Discuss file system characteristics and features (e.g., NTFS, FAT32, ExFAT)
4. Configure files and programs (e.g., compatibility mode, file compression, installation)
5. Discuss the characteristics of boot methods (e.g., POST, USB, Recovery)
6. Troubleshoot common operating system issues (e.g., blue screen of death, crashing, boot issues)
7. Discuss common operating system utilities (e.g., disk mngmt, disk cleanup, system monitoring)
8. Explain considerations when upgrading an operating system
9. Use common command line tools for Windows and Linux systems (e.g., cd, mkdir, ipconfig, cat)

Networks (20 test items)

1. Explain how data is sent and received through a network (e.g., devices, protocols, IP and MAC addresses)
2. Describe different types of networks (e.g., LAN, WAN)
3. Describe the functions of common networking protocols (e.g., TCP/IP, UDP, SMTP, SSH)
4. Discuss IP addressing schemes and configurations (e.g., static, dynamic, public, private, IPv4, IPv6)
5. Describe wireless networking standards (e.g., 802.11xx) and equipment
6. Describe the characteristics of Ethernet (e.g., types, standards, capabilities)
7. Describe how DHCP and DNS assign, manage, and use IP addresses
8. Discuss the purposes and functions of common networking devices (e.g., modems, routers, switches)
9. Describe how IP and MAC addresses facilitate communication over networks

Computer Hardware and Connectivity (20 test items)

1. Describe computer components (e.g., CPU, motherboard, GPU)
2. Describe expansion cards (e.g., graphics cards, sound cards, NIC)
3. Discuss considerations when purchasing or upgrading a computer
4. Describe computer storage devices (e.g., SSD, HDD, external drives)
5. Explain peripheral cables and connectors (e.g., RJ45/11, USB, thunderbolt)
6. Describe the characteristics of network cables (e.g., cat 5e, coaxial, fiber)
7. Apply troubleshooting methodologies to identify and solve common hardware problems
8. Discuss symptoms and causes of computer power issues (e.g., lights, fans, circuit fault)

Security (15 test items)

2026-2027 Competitive Events Guidelines

Computer Problem Solving

1. Discuss the purposes and characteristics of protective measures (e.g., access control, permissions, auditing, event logging)
2. Discuss digital security threats (e.g., viruses, malware, spyware)
3. Discuss antivirus and firewall configurations
4. Discuss the danger of social engineering and ways to prevent it
5. Discuss common cyber-attacks and vulnerabilities (DoS, DDoS, phishing, SQL injection, malware, etc.)
6. Discuss types of security threats (e.g., internal or external, footprinting, spoofing)
7. Differentiate between confidentiality, integrity, and availability
8. Describe types of vulnerabilities and how to address them (e.g., non-compliance, zero-day)
9. Discuss Wi-Fi Protect Access features, versions, and characteristics

Laptops, Tablets, and Mobile Devices (15 test items)

1. Describe preventive care of laptops and mobile devices (e.g., battery, charging, heat, cleaning)
2. Discuss hardware differences between laptops, mobile devices, and desktops (e.g., RAM, CPU, efficiency, power supply)
3. Discuss cross-device data synchronization (e.g., cloud, USB, Wi-Fi)
4. Describe the capabilities, limitations, and requirements for Bluetooth
5. Troubleshoot connectivity issues on laptops and mobile devices
6. Discuss wireless connectivity methods for laptops and mobile devices (e.g., 5G, Hotspot, LTE)
7. Discuss replacement and upgrade of laptop components (e.g., RAM, adapter, battery, adapter cards)
8. Explain common hardware and power issues in laptops and mobile devices

Printers and Peripherals (10 test items)

1. Discuss printer hardware and consumables
2. Identify ports, interfaces, and cables used by printers
3. Troubleshoot printer connection issues (e.g., not responding, printer not found)
4. Determine causes of print quality issues (e.g., faded, blank, speckled, striped pages)
5. Explain basic maintenance of laser, inkjet, and thermal printers
6. Discuss printer sharing methods (e.g., PC host, network, Ethernet)
7. Customize print jobs with preferences and settings (e.g., trays, duplex, modes)
